EXPERIENCE

BACK-END DEVELOPER INTERN | EXELON CIRCUITS   **May2024-July2024**

- Developed and optimized backend services with Node.js, Express, and MongoDB, using MongoDB Realm for frontend queries.
- Implemented secure authentication with JWT and OAuth, and managed file storage with AWS S3 and Lambda.
- Built efficient RESTful APIs for seamless frontend-backend integration.
- Ensured code quality, performance, and security in an agile development environment.

SKILLS

Java (OOPS, JCF)	React js	Express js
Advanced Javascript	MongoDB	HTML, CSS, EJS
Python	MySQL	Git, Github & Postman

PROJECTS

EduTrack

EJS, Passport JS, Nodemailer, JWT, MongoDB

In my School Management System project, I implemented an automated certificate generation process, reducing manual effort and improving efficiency. Google OAuth was integrated for secure and seamless authentication. I used Cloudinary for file storage, enabling efficient management of images and documents. The system featured dynamic EJS pages like Admin, Student, and Staff Dashboards, streamlining school operations.

BookMyDoc

Node js, React js, Express js, Realm-web, AWS s3, MongoDB

During my 2-month internship at Excelon Circuit, I built an online doctor appointment system with roles for admin, doctor, and receptionist. The project included booking time slots, managing patient-related files, Realm-web to write query in frontend, and storing files in AWS S3 buckets. This system streamlined appointment scheduling and securely handled patient records.

Family FundTracker

EJS, Express js, Cloudinary, JWT, Passport js

I developed a web application , which can manage the Payment made by the users. I used Node.Js , Express.Js for backend and MongoDb a NOSQL database to store the details and EJS , a Template Engine for Frontend , which is a server side rendering technology to generate Dynamic web pages. It has the functionalities like get the pending status , generate bills , generate Excel sheet , and CRUD operation

EDUCATION & CERTIFICATIONS

Master's in Computer Applications   **2022-2024**
St.Joseph Engineering College,Mangalore

Bachelor of Science   **2019-2022**
Vijaya College Mulki

PCMC.s   **2017-2019**
Poorna Prajna College , Admar

ADDITIONOL COURSES

Data Structure & Algorithm in Java
Apna college

React js
Namaste React

SpringBoot
Engineering Digest

Django
Micro Degree
